

**WPPC Interiors Committee**  
**(Sub-committee of Building Committee)**

Saturday, October 11, 2008

Members Present: Peggy McClintock, Marylou McKay, Carolyn Merritt, Max Denby, Jan Oliver and Dennis Chivers, architect  
Members not able to attend: Sue Peterson, Abby Brockway and Margi Luttrell (she has just joined us)

The committee met Dennis Chivers at Newport Presbyterian Church (10:30 AM) to see the new Narthex remodel and to look at chairs and carpeting. Dennis led our tour through the church. Members were able to sit in the chairs, move them around, see them stacked etc.

Dennis then took us to Issaquah Covenant Presbyterian Church to view the Narthex / Common Room and sanctuary. We also discussed flooring that was used there - an acid washed cement (beautiful) but not practical for our church. (\*Note - we are hoping for environmentally responsible products)

We then went back to Lynnwood to BPH Architect's offices to review samples of flooring, carpeting, chairs and chair coverings. We also looked at alternate ways of arranging tiles, flooring etc. to define our spaces. Dennis will bring drawings to our next building committee. Dennis is also arranging to have sample chairs brought to our church for the members to look at, sit in etc. before a decision is made.

Dennis will put together some color boards to begin discussion with the Interiors Committee. The Committee is very excited about working with Dennis and making changes to our church "home".  
(Todd, you may have to rein us in at times .... )

Christopher also sent us a link to Holsag Company, another furniture manufacturer, to review.

Peace to all
